TECHNICAL MANPOWER IN NEW YORK STATE. VOLUME I, SUPPLEMENT A,
APPENDIX TABLES.

BY- PEARCE, C.A. AND OTHERS

NEW YORK STATE DEPT. OF LABOR, ALBANY

REPORT NUMBER NYSDL-SB-239-VOL-1-SUPPL-A PUB DATE DEC 64

NEW YORK STATE EDUCATION DEPT., ALBANY

EDRS PRICE MF-\$0.75 HC-\$5.88 147P.

DESCRIPTORS- *OCCUPATIONAL SURVEYS, *TECHNICAL OCCUPATIONS,
*EMPLOYMENT STATISTICS, EDUCATIONAL NEEDS, JOB ANALYSIS, JOB
SKILLS, PROFESSIONAL OCCUPATIONS, EMPLOYMENT QUALIFICATIONS,
SALARIES, SEX (CHARACTERISTICS), LABOR UNIONS, EMPLOYMENT
OPPORTUNITIES, RECRUITMENT, EDUCATIONAL BACKGROUND,
EDUCATIONAL PROGRAMS, NEW YORK,

THE 53 TABLES OF DATA COLLECTED FROM A SURVEY OF 17,414
ESTABLISHMENTS IN NEW YORK INCLUDE (1) NUMBER OF
ESTABLISHMENTS WITH TECHNICAL OCCUPATIONS AND WITH ENGINEERS
OR SCIENTISTS, BY INDUSTRY GROUP (INCLUDING NUMBER OF WORKERS
THEY EMPLOY, NUMBER IN TECHNICAL OCCUPATIONS, AND NUMBER WHO
ARE ENGINEERS AND SCIENTISTS), (2) NUMBER IN HOURLY-RATED AND
IN SALARIED TECHNICAL OCCUPATIONS AND NUMBER EARNING LESS
THAN TWO DOLLARS AN HOUR OR \$75 A WEEK, BY OCCUPATIONAL
GROUP, (3) NUMBER IN EACH DETAILED TECHNICAL OCCUPATION, BY
AREA, (4) NUMBER OF UNION MEMBERS IN EACH DETAILED TECHNICAL
OCCUPATION, (5) NUMBER OF VACANCIES REPORTED IN EACH
TECHNICAL OCCUPATION, (6) EDUCATION REQUIRED BY EMPLOYERS IN
EACH TECHNICAL OCCUPATION GROUP, (7) LICENSES AND TESTS
REQUIRED BY EMPLOYERS, BY TECHNICAL OCCUPATION GROUP, AND (8)
NUMBER OF ENGINEERS, SCIENTISTS, AND TEACHERS OF ENGINEERING,
SCIENCE, AND TECHNOLOGY IN EACH DETAILED OCCUPATION.
"TECHNICAL MANPOWER IN NEW YORK STATE," VOLUME I, SUPPLEMENT
B, AND VOLUME II (VT 000 576 - 000 579) ARE RELATED
DOCUMENTS. (FS)

TECHNICAL MANPOWER IN NEW YORK STATE

VOLUME I, SUPPLEMENT A

APPENDIX TABLES

STATE OF NEW YORK
NELSON A. ROCKEFELLER, *Governor*

DEPARTMENT OF LABOR
M. P. CATHERWOOD, *Industrial Commissioner*

In cooperation

with

THE STATE EDUCATION DEPARTMENT
JAMES E. ALLEN, JR., *Commissioner of Education*

STATE UNIVERSITY OF NEW YORK
SAMUEL B. GOULD, *President of the State University*

NEW YORK STATE DEPARTMENT OF LABOR
Division of Research and Statistics

Special Bulletin 239

December 1964

This report consists of volume 1, supplement A (the present volume, containing the appendix tables of volume 1), supplement B (job projections), and volume 2 (detail on each of fifteen groups of technical occupations).

Prepared by

C. A. PEARCE, *Director*
Division of Research and Statistics

and associates:

ABRAHAM J. BERMAN, *Principal Statistician*
HAROLD LOEB, *Associate Economist*
DOROTHLA MAIER, *Associate Economist*

with the assistance of:

CARL RAUSHENBUSH, *Associate Economic Research Editor*

Jean Fleischer, Elizabeth Kadish, Nicholas Neufeld,
Lawrence Palminteri, Sidney Rosenthal, *Senior Economists*
William Grainger, Sheldon Dorfman, Rita Israel, *Statisticians*
William Kasper, Bernard Kaye, Donald Thompson, *Economists*
and
Herbert Slotnick, *Head Statistics Clerk*

The Division gratefully acknowledges the assistance of those persons outside the Department, mentioned in the Preface to volume 1, who participated in the preparation of the report.

List of Tables

1. Number of establishments (1) with technical occupations and (2) with engineers or scientists, by industry group (including number of workers they employ, number in technical occupations, and number who are engineers and scientists)	1
2. Number of establishments (1) with technical occupations but no engineers or scientists, (2) with engineers or scientists but no technical occupations, and (3) with both, by industry group (including number of workers they employ, number in technical occupations, and number who are engineers and scientists)	4
3. Number of establishments (1) with technical occupations and (2) with engineers or scientists, by size of establishment and industry division (including number of workers they employ, number in technical occupations, and number who are engineers and scientists)	8
4. Number of establishments (1) with technical occupations but no engineers or scientists, (2) with engineers or scientists but no technical occupations, and (3) with both, by size of establishment and industry division (including number of workers they employ, number in technical occupations, and number who are engineers and scientists)	10
5. Number of establishments with research and development activities, by industry division (including number of workers they employ, number in technical occupations, and number who are engineers and scientists)	12
6. Number of establishments (1) with technical occupations, (2) with engineers or scientists, (3) with technical occupations but no engineers or scientists, (4) with engineers or scientists but no technical occupations, and (5) with both, by area (including number of workers they employ, number in technical occupations, and number who are engineers and scientists)	13
7. Number in hourly-rated and in salaried technical occupations and number earning less than \$2.00 an hour or \$75 a week, by occupation group	14
8. Number in each detailed technical occupation, by area	15
9. Number in each detailed technical occupation, by industry division	23
10. Number in each technical occupation group, by area and industry division	31
11. Function in relation to field among electro and mechanical engineering technicians, by area and industry division (number in technical occupations)	35
12. Product or equipment worked on by electro and mechanical engineering technicians whose function is (A) design, (B) development, and (C) troubleshooting, by area (number in technical occupations)	39
13. Product or equipment worked on by electro and mechanical engineering technicians whose function is (A) design, (B) development, and (C) troubleshooting, by industry division (number in technical occupations)	45
14. Size of establishment, by technical occupation group (number in technical occupations)	51
15. Grade, by size of establishment (number in technical occupations)	51

16. Median size of establishments in which persons in specified technical occupation groups are employed, by grade structure (based on total employment in establishment)	52
17. Number of persons at each grade level, by detailed technical occupation	53
18. Number of persons with supervisory functions in each technical occupation group	59
19. Number of women in each detailed technical occupation, by industry division	60
20. Percent distribution of women in selected technical occupations according to industry division	66
21. Number of union members in each detailed technical occupation	67
22. Union members as a percent of persons in each technical occupation group, by area	71
23. Union members as a percent of persons in each technical occupation group, by industry division	72
24. Number of vacancies reported in each detailed technical occupation, by industry division (including percent distribution by occupation, and also vacancy rate)	73
25. Vacancy rate in each technical occupation group, by industry division	79
26. Number of vacancies reported in each technical occupation, by area	80
27. Number of vacancies reported in each technical occupation, by grade	86
28. Method of obtaining workers for each technical occupation group, by grade (percent distribution of persons in technical occupations)	91
29. Method of obtaining electro and mechanical engineering technicians in relation to field and function, by grade (percent distribution of persons in technical occupations)	93
30. Method of obtaining workers for each technical occupation group, by industry division (percent distribution of persons in technical occupations)	95
31. Method of obtaining electro and mechanical engineering technicians in relation to field and function, by industry division (percent distribution of persons in technical occupations)	98
32. Graduates of colleges and technical institutes as a percent of persons in each technical occupation group, by grade	101
33. Graduates of colleges and technical institutes as a percent of electro and mechanical engineering technicians in relation to field and function, by grade	102
34. Graduates of colleges and technical institutes as a percent of persons in each technical occupation group, by industry division	103
35. Graduates of colleges and technical institutes as a percent of electro and mechanical engineering technicians in relation to field and function, by industry division	105
36. Education employers require in each technical occupation group	107

37. Education employers prefer in each technical occupation group	109
38. Years of experience employers require in each technical occupation group	111
39. Percent of workers in each technical occupation group for whom employers require no experience, by grade and required education	112
40. Requirement of post-high-school education in each technical occupation group, by grade	113
41. Requirement of post-high-school education in each technical occupation group, by area (percent of persons in technical occupations whose employers require education beyond high school)	114
42. Requirement of post-high-school education in each technical occupation group, by industry division (percent of persons in technical occupations whose employers require education beyond high school)	115
43. Median years of experience employers require in each technical occupation group, by grade and required education	116
44. Employer's preference for more than required education as against more experience, by technical occupation group	118
45. Licenses and tests required by employers, by technical occupation group	120
46. Number of engineers, scientists, and teachers of engineering, science, and technology in each detailed occupation, by industry division	122
47. Number of engineers, scientists, and teachers of engineering, science, and technology in each detailed occupation, by area	125
48. Function of engineers, scientists, and teachers of engineering, science, and technology, by detailed occupation (number and percent distribution)	128
49. Degree held by engineers, scientists, and teachers of engineering, science, and technology, by detailed occupation (number and percent with degrees)	130
50. Ratio of persons in technical occupations to engineers and scientists, by industry group	132
51. Training and tuition-refund programs, by area, by industry division, and by size of establishment (number of establishments with programs as a percent of all establishments with technical occupations; number of persons in technical occupations in these establishments as a percent of all persons in technical occupations)	134
52. Establishments with (A) training or (B) tuition-refund programs as a percent of all establishments with technical occupations, by industry division and size of establishment (also number of persons they employ in technical occupations as a percent of all persons in technical occupations)	135
53. Universe and sample covered by the survey, by industry group (including number of establishments, the workers they employ, number who are engineers and scientists, and number in technical occupations)	136

Table 1. NUMBER OF ESTABLISHMENTS (1) WITH TECHNICAL OCCUPATIONS AND (2) WITH ENGINEERS OR SCIENTISTS, BY INDUSTRY GROUP
(Including number of workers they employ, number in technical occupations, and number who are engineers and scientists)

Industry group	All establishments		Establishments with technical occupations		Establishments with engineers or scientists

^a Not computed because of small number involved.

^b Includes workers and jobs in establishments that did not report a grading system.

^c Each grade within each technical occupation is counted as a separate job for this purpose, a single-grade occupation being counted just once in a given establishment. There were 37,731 such jobs (occupation-grade units) in the 14,595 establishments having technical occupations.

**Table 44. EMPLOYER'S PREFERENCE FOR MORE THAN REQUIRED EDUCATION AS AGAINST
MORE EXPERIENCE, BY TECHNICAL OCCUPATION GROUP**
